**ALLIANCEBERNSTEIN L.P.**  
**AND SUBSIDIARIES**  
**Notes to Condensed Consolidated Financial Statements**  
**June 30, 2015**  
(unaudited)

The words “we” and “our” refer collectively to AllianceBernstein L.P. and its subsidiaries (“AB”), or to their officers and employees. Similarly, the word “company” refers to AB. These statements should be read in conjunction with AB’s audited consolidated financial statements included in AB’s Form 10-K for the year ended December 31, 2014.

## **1. Business Description Organization and Basis of Presentation**

### *Business Description*

We provide research, diversified investment management and related services globally to a broad range of clients. Our principal services include:

- Institutional Services – servicing our institutional clients, including private and public pension plans, foundations and endowments, insurance companies, central banks and governments worldwide, and affiliates such as AXA and its subsidiaries, by means of separately-managed accounts, sub-advisory relationships, structured products, collective investment trusts, mutual funds, hedge funds and other investment vehicles.
- Retail Services – servicing our retail clients, primarily by means of retail mutual funds sponsored by AB or an affiliated company, sub-advisory relationships with mutual funds sponsored by third parties, separately-managed account programs sponsored by financial intermediaries worldwide and other investment vehicles.
- Private Wealth Management Services – servicing our private clients, including high-net-worth individuals and families, trusts and estates, charitable foundations, partnerships, private and family corporations, and other entities (including most institutions for which we manage accounts with less than \$25 million in assets), by means of separately-managed accounts, hedge funds, mutual funds and other investment vehicles.
- Bernstein Research Services – servicing institutional investors, such as pension fund, hedge fund and mutual fund managers, seeking high-quality fundamental research, quantitative services and brokerage-related services in equities and listed options.

We also provide distribution, shareholder servicing, transfer agency services and administrative services to the mutual funds we sponsor.

Our high-quality, in-depth research is the foundation of our business. Our research disciplines include economic, fundamental equity, fixed income and quantitative research. In addition, we have experts focused on multi-asset strategies, wealth management and alternative investments.

We provide a broad range of investment services with expertise in:

- Actively managed equity strategies, with global and regional portfolios across capitalization ranges and investment strategies, including value, growth and core equities;
- Actively managed traditional and unconstrained fixed income strategies, including taxable and tax-exempt strategies;
- Passive management, including index and enhanced index strategies;
- Alternative investments, including hedge funds, fund of funds and private equity (*e.g.*, direct real estate investing); and
- Multi-asset solutions and services, including dynamic asset allocation, customized target-date funds and target-risk funds.

Our services span various investment disciplines, including market capitalization (*e.g.*, large-, mid- and small-cap equities), term (*e.g.*, long-, intermediate- and short-duration debt securities), and geographic location (*e.g.*, U.S., international, global, emerging markets, regional and local), in major markets around the world.

## Organization

As of June 30, 2015, AXA, a *société anonyme* organized under the laws of France and the holding company for an international group of insurance and related financial services companies, through certain of its subsidiaries (“AXA and its subsidiaries”), owned approximately 1.4% of the issued and outstanding units representing assignments of beneficial ownership of limited partnership interests in AllianceBernstein Holding L.P. (“AB Holding Units”).

As of June 30, 2015, the ownership structure of AB, expressed as a percentage of general and limited partnership interests, was as follows:

AXA and its subsidiaries	62.1%
AB Holding	36.5
Unaffiliated holders	1.4
	<u>100.0%</u>

AllianceBernstein Corporation (an indirect wholly-owned subsidiary of AXA, “General Partner”) is the general partner of both AllianceBernstein Holding L.P. (“AB Holding”) and AB. AllianceBernstein Corporation owns 100,000 general partnership units in AB Holding and a 1% general partnership interest in AB. Including both the general partnership and limited partnership interests in AB Holding and AB, AXA and its subsidiaries had an approximate 62.7% economic interest in AB as of June 30, 2015.

## Basis of Presentation

The interim condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (“SEC”). In the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the interim results, have been made. The preparation of the condensed consolidated financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the interim reporting periods. Actual results could differ from those estimates. The condensed consolidated statement of financial condition as of December 31, 2014 was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

The condensed consolidated financial statements include AB and its majority-owned and/or controlled subsidiaries. All significant inter-company transactions and balances among the consolidated entities have been eliminated.

## Reclassification

The 2014 amounts for Institutional and Private Wealth Management finders’ fees previously presented as other promotion and servicing now are presented as distribution-related payments in the condensed consolidated statements of income to conform to the current year’s presentation.

## 2. Accounting Pronouncements

### Accounting Pronouncements Not Yet Adopted

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, *Revenue from Contracts with Customers*. The amendment is effective retrospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2017. Management currently is evaluating the impact that the adoption of this standard will have on our consolidated financial statements.

In June 2014, the FASB issued ASU 2014-12, *Accounting for Share-Based Payments When the Terms of an Award Provide That a Performance Target Could Be Achieved After the Requisite Service Period*. The amendment is effective prospectively or retrospectively for fiscal years (and interim periods within those years) beginning after December 15, 2015 and is not expected to have a material impact on our financial condition or results of operations.

In February 2015, the FASB issued ASU 2015-02, *Consolidation – Amendments to the Consolidation Analysis*. The amendment is effective retrospectively for fiscal years (and interim reporting periods within those years) beginning after December 15, 2015. Management currently is evaluating the impact that the adoption of this standard will have on our consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, *Simplifying the Presentation of Debt Issuance Costs*, which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the carrying value of the associated debt liability, consistent with the presentation of a debt discount. The amendment is effective retrospectively for fiscal years (and interim periods within those years) beginning after December 15, 2015 and is not expected to have a material impact on our financial condition or results of operations.

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. Under the new guidance, investments measured at net asset value (“NAV”), as a practical expedient for fair value, are excluded from the fair value hierarchy. Removing investments measured using the practical expedient from the fair value hierarchy is intended to eliminate the diversity in practice that currently exists with respect to the categorization of these investments. The only criterion for categorizing investments in the fair value hierarchy will be the observability of the inputs. The amendment is effective retrospectively for fiscal years (and interim periods within those years) beginning after December 15, 2015 and is not expected to have a material impact on our financial condition or results of operations.

### 3. Long-term Incentive Compensation Plans

We maintain several unfunded, non-qualified long-term incentive compensation plans, under which we grant annual awards to employees, generally in the fourth quarter.

Awards granted in December 2014 and 2013 allowed participants to allocate their awards between restricted AB Holding Units and deferred cash. Participants (except certain members of senior management) generally could allocate up to 50% of their awards to deferred cash, not to exceed a total of \$250,000 per award. Each of our employees based outside of the United States (other than expatriates) who received a 2014 or 2013 award of \$100,000 or less could have allocated up to 100% of his or her award to deferred cash. For awards granted in 2014 and 2013, participants allocated their awards prior to the date on which the Compensation Committee granted awards, December 12, 2014 and 2013, respectively. For these awards, the number of AB Holding Units awarded was based on the closing price of an AB Holding Unit on those days. For awards granted in 2014 and 2013:

- We engaged in open-market purchases of AB Holding Units, or purchased newly-issued AB Holding Units from AB Holding, that were awarded to participants and held them in a consolidated rabbi trust.
- Quarterly distributions on vested and unvested AB Holding Units are paid currently to participants, regardless of whether or not a long-term deferral election has been made.
- Interest on deferred cash is accrued monthly based on our monthly weighted average cost of funds.

We recognize compensation expense related to equity compensation grants in the financial statements using the fair value method. Fair value of restricted AB Holding Unit awards is the closing price of an AB Holding Unit on the grant date; fair value of options is determined using the Black-Scholes option valuation model. Under the fair value method, compensatory expense is measured at the grant date based on the estimated fair value of the award and is recognized over the required service period. For year-end long-term incentive compensation awards, employees who resign or are terminated without cause may retain their awards, subject to compliance with certain agreements and restrictive covenants set forth in the applicable award agreement, including restrictions on competition and employee and client solicitation, and a claw-back for failing to follow existing risk management policies. Because there is no service requirement, we fully expense these awards on grant date. Most equity replacement, sign-on or similar deferred compensation awards included in separate employment agreements or arrangements include a required service period. Regardless of whether or not the award agreement includes employee service requirements, AB Holding Units typically are distributed to employees ratably over four years, unless the employee has made a long-term deferral election.

Grants of restricted AB Holding Units and options to buy AB Holding Units typically are awarded during the second quarter to members of the Board of Directors of the General Partner who are not employed by our company or by any of our affiliates (“Eligible Directors”). Restricted AB Holding Units are distributed on the third anniversary of the grant date and the options become exercisable ratably over three years. These restricted AB Holding Units and options are not forfeitable (except if the E

ligible Director is terminated for “Cause”, as that term is defined in the applicable award agreement). Because there is no service requirement, we fully expense these awards on grant date.

We fund our restricted AB Holding Unit awards either by purchasing AB Holding Units on the open market or purchasing newly-issued AB Holding Units from AB Holding, all of which then are held in a consolidated rabbi trust until they are distributed to employees or retired. In accordance with the Amended and Restated Agreement of Limited Partnership of AB (“AB Partnership Agreement”), when AB purchases newly-issued AB Holding Units from AB Holding, AB Holding is required to use the proceeds it receives from AB to purchase the equivalent number of newly-issued AB Units, thus increasing its percentage ownership interest in AB. AB Holding Units held in the consolidated rabbi trust are corporate assets in the name of the trust and are available to the general creditors of AB.

During the second quarter and first six months of 2015, we purchased 0.1 million and 0.8 million AB Holding Units for \$4.3 million and \$21.3 million, respectively (on a trade date basis). These amounts reflect open-market purchases of 0.1 million and 0.7 million AB Holding Units for \$4.0 million and \$19.0 million, respectively, with the remainder relating to purchases of AB Holding Units from employees to allow them to fulfill statutory tax withholding requirements at the time of distribution of long-term incentive compensation awards. During the second quarter and the first six months of 2014, we purchased approximately 15,000 and 0.2 million AB Holding Units for \$0.4 million and \$4.1 million, respectively (on a trade date basis). These amounts reflect purchases of AB Holding Units from employees to allow them to fulfill statutory tax withholding requirements at the time of distribution of long-term incentive compensation awards.

Each quarter, we implement plans to repurchase AB Holding Units pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934, as amended (“Exchange Act”). A Rule 10b5-1 plan allows a company to repurchase its shares at times when it otherwise might be prevented from doing so because of self-imposed trading blackout periods or because it possesses material non-public information. Each broker we select has the authority under the terms and limitations specified in the plan to repurchase AB Holding Units on our behalf in accordance with the terms of the plan. Repurchases are subject to regulations promulgated by the SEC as well as certain price, market volume and timing constraints specified in the plan. The plan adopted during the second quarter of 2015 expired at the close of business on July 29, 2015. We may adopt additional Rule 10b5-1 plans in the future to engage in open-market purchases of AB Holding Units to help fund anticipated obligations under our incentive compensation award program and for other corporate purposes.

During the first six months of 2015 and 2014, we granted to employees and Eligible Directors 0.3 million and 0.4 million restricted AB Holding Unit awards, respectively. We used AB Holding Units repurchased during the period and newly-issued AB Holding Units to fund restricted AB Holding Unit awards.

During the first six months of 2015 and 2014, AB Holding issued 0.5 million and 0.7 million AB Holding Units upon exercise of options to buy AB Holding Units, respectively. AB Holding used the proceeds of \$9.0 million and \$12.0 million received from employees as payment in cash for the exercise price, respectively, to purchase the equivalent number of newly-issued AB Units.

#### **4. Cash Distributions**

AB is required to distribute all of its Available Cash Flow, as defined in the AB Partnership Agreement, to its Unitholders and to the General Partner. Available Cash Flow can be summarized as the cash flow received by AB from operations minus such amounts as the General Partner determines, in its sole discretion, should be retained by AB for use in its business, or plus such amounts as the General Partner determines, in its sole discretion, should be released from previously retained cash flow.

Typically, Available Cash Flow has been the adjusted diluted net income per unit for the quarter multiplied by the number of general and limited partnership interests at the end of the quarter. In future periods, management anticipates that Available Cash Flow will be based on adjusted diluted net income per unit, unless management determines that one or more non-GAAP adjustments that are made for adjusted net income should not be made with respect to the Available Cash Flow calculation.

On July 30, 2015, the General Partner declared a distribution of \$0.54 per AB Unit, representing a distribution of Available Cash Flow for the three months ended June 30, 2015. The General Partner, as a result of its 1% general partnership interest, is entitled to receive 1% of each distribution. The distribution is payable on August 27, 2015 to holders of record on August 10, 2015.

## 5. Real Estate Charges

During 2010, we performed a comprehensive review of our real estate requirements in New York in connection with our workforce reductions, which commenced in 2008. As a result, during 2010 we decided to sub-lease over 380,000 square feet in New York (all of this space has been sublet) and consolidate our New York-based employees into two office locations from three. During the third quarter of 2012, in an effort to further reduce our global real estate footprint, we completed a comprehensive review of our worldwide office locations and began implementing a global space consolidation plan. As a result, our intention is to sub-lease approximately 510,000 square feet of office space (in excess of 90% of this space has been sublet), more than 70% of which is New York office space (in addition to the 380,000 square foot space reduction in 2010), with the remainder consisting of office space in England, Australia and various U.S. locations.

During the first six months of 2015, we recorded pre-tax real estate credits of \$0.5 million, resulting from a change in estimates related to previously recorded real estate charges.

The activity in the liability account relating to our 2010 and 2012 office space consolidation initiatives for the following periods is as follows:

	<b>Six Months Ended June 30, 2015</b>	<b>Twelve Months Ended December 31, 2014</b>
	(in thousands)	
Balance as of beginning of period	\$ 148,429	\$ 199,527
Expense (credit) incurred	(65)	(4,755)
Deferred rent	—	—
Payments made	(24,435)	(50,893)
Interest accretion	2,167	4,550
<b>Balance as of end of period</b>	<b>\$ 126,096</b>	<b>\$ 148,429</b>

## 6. Net Income per Unit

Basic net income per unit is derived by reducing net income for the 1% general partnership interest and dividing the remaining 99% by the basic weighted average number of units outstanding for each period. Diluted net income per unit is derived by reducing net income for the 1% general partnership interest and dividing the remaining 99% by the total of the diluted weighted average number of units outstanding for each period.

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>
	(in thousands, except per unit amounts)			
Net income attributable to AB Unitholders	\$ 149,094	\$ 136,435	\$ 290,563	\$ 253,160
Weighted average units outstanding – basic	272,858	268,782	272,844	268,621
Dilutive effect of compensatory options to buy AB Holding Units	1,253	1,169	1,184	1,127
Weighted average units outstanding – diluted	274,111	269,951	274,028	269,748
<b>Basic net income per AB Unit</b>	<b>\$ 0.54</b>	<b>\$ 0.50</b>	<b>\$ 1.05</b>	<b>\$ 0.93</b>
<b>Diluted net income per AB Unit</b>	<b>\$ 0.54</b>	<b>\$ 0.50</b>	<b>\$ 1.05</b>	<b>\$ 0.93</b>

For the three and six months ended June 30, 2015, we excluded 2,383,589 options from the diluted net income per unit computation due to their anti-dilutive effect. For the three and six months ended June 30, 2014, we excluded 2,806,033 options from the diluted net income per unit computation due to their anti-dilutive effect.

## 7. Cash and Securities Segregated Under Federal Regulations and Other Requirements

As of June 30, 2015 and December 31, 2014, \$0.4 billion of U.S. Treasury Bills were segregated in a special reserve bank custody account for the exclusive benefit of brokerage customers of Sanford C. Bernstein & Co., LLC (one of our subsidiaries, “SCB LLC”) under Rule 15c3-3 of the Exchange Act.

AllianceBernstein Investments, Inc. (one of our subsidiaries, “AllianceBernstein Investments”), the distributor of company-sponsored U.S. mutual funds, maintains several special bank accounts for the exclusive benefit of customers. As of June 30, 2015 and December 31, 2014, \$37.4 million and \$61.3 million, respectively, of cash was segregated in these bank accounts.

## 8. Investments

Investments consist of:

	June 30, 2015	December 31, 2014
	(in thousands)	
Available-for-sale (primarily seed capital)	\$ 5,825	\$ 6,172
Trading:		
Long-term incentive compensation-related	61,564	74,095
U.S. Treasury Bills	29,000	28,982
Seed capital	416,248	400,746
Equities	57,355	79,720
Exchange-traded options	7,935	22,290
Investments in limited partnership hedge funds:		
Long-term incentive compensation-related	19,822	24,684
Seed capital	24,412	33,951
Consolidated private equity fund (10% seed capital)	27,745	32,604
Private equity (seed capital)	48,412	48,734
Other	13,307	11,497
<b>Total investments</b>	<b>\$ 711,625</b>	<b>\$ 763,475</b>

Total investments related to long-term incentive compensation obligations of \$81.4 million and \$98.8 million as of June 30, 2015 and December 31, 2014, respectively, consist of company-sponsored mutual funds and hedge funds. For long-term incentive compensation awards granted before 2009, we typically made investments in our services that were notionally elected by plan participants and maintained them (and continue to maintain them) in a consolidated rabbi trust or separate custodial account. The rabbi trust and custodial account enable us to hold such investments separate from our other assets for the purpose of settling our obligations to participants. The investments held in the rabbi trust and custodial account remain available to the general creditors of AB.

The underlying investments of the hedge funds in which we invest include long and short positions in equity securities, fixed income securities (including various agency and non-agency asset-based securities), currencies, commodities and derivatives (including various swaps and forward contracts). These investments are valued at quoted market prices or, where quoted market prices are not available, are fair valued based on the pricing policies and procedures of the underlying funds.

U.S. Treasury Bills are held by SCB LLC in its investment account, the majority of which are pledged as collateral with clearing organizations. These clearing organizations have the ability by contract or custom to sell or re-pledge this collateral.

We allocate seed capital to our investment teams to help enable them to develop new products and services for our clients. The seed capital trading investments are equity and fixed income products, primarily in the form of separately-managed account portfolios, U.S. mutual funds, Luxembourg funds, Japanese investment trust management funds or Delaware business

trusts. We also may allocate seed capital to investments in private equity funds, such as our consolidated venture capital fund, which holds technology, media, telecommunications, healthcare and clean-tech investments, and a third-party venture capital fund that invests in communications, consumer, digital media, healthcare and information technology markets.

Trading securities also include long positions in corporate equities, an exchange-traded fund and long exchange-traded options traded through our options desk.

The portion of trading gains (losses) for the three and six months ended June 30, 2015 and 2014 related to trading securities held as of June 30, 2015 and 2014 is as follows (in thousands):

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>
	(in thousands)			
Net (losses) gains recognized during the period	\$ (1,432)	\$ 10,957	\$ 5,352	\$ 25,769
Less: net gains recognized during the period on trading securities sold during the period	506	3,462	6,553	7,866
<b>Unrealized (losses) gains recognized during the period on trading securities held</b>	<b>\$ (1,938)</b>	<b>\$ 7,495</b>	<b>\$ (1,201)</b>	<b>\$ 17,903</b>

## 9. Derivative Instruments

We enter into various futures, forwards and swaps to economically hedge certain seed capital investments. Also, we have currency forwards that economically hedge certain cash accounts and exchange-traded futures to economically hedge a foreign investment. In addition, our options desk trades long and short exchange-traded equity options. We do not hold any derivatives designated in a formal hedge relationship under Accounting Standards Codification (“ASC”) 815-10, *Derivatives and Hedging*.

The notional value and fair value as of June 30, 2015 and December 31, 2014 for derivative instruments (excluding our options desk trading activities discussed below) not designated as hedging instruments were as follows:

	Notional Value	Fair Value	
		Asset Derivatives	Liability Derivatives
		(in thousands)	
June 30, 2015:			
Exchange-traded futures	\$ 147,181	\$ 2,347	\$ 168
Currency forwards	256,119	4,145	3,750
Interest rate swaps	76,058	4,579	5,146
Credit default swaps	27,244	1,451	357
Option swaps	64	54	7
Total return swaps	103,916	1,993	1,187
Total derivatives	\$ 610,582	\$ 14,569	\$ 10,615
December 31, 2014:			
Exchange-traded futures	\$ 149,863	\$ 571	\$ 2,438
Currency forwards	149,282	1,782	333
Interest rate swaps	50,591	1,507	2,679
Credit default swaps	32,745	1,432	110
Option swaps	11	107	88
Total return swaps	125,913	1,388	3,744
Total derivatives	\$ 508,405	\$ 6,787	\$ 9,392

As of June 30, 2015 and December 31, 2014, the derivative assets and liabilities are included in both receivables and payables to brokers and dealers on our condensed consolidated statements of financial condition.

The gains and losses for derivative instruments (excluding our options desk trading activities) for the three and six months ended June 30, 2015 and 2014 recognized in investment gains (losses) in the condensed consolidated statements of income were as follows:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2015</b>	<b>2014</b>	<b>2015</b>	<b>2014</b>
	(in thousands)			
Exchange-traded futures	\$ 1,428	\$ (3,898)	\$ (3,559)	\$ (4,396)
Currency forwards	(1,294)	(1,346)	2,158	(3,012)
Interest rate swaps	415	(1,134)	(330)	(1,927)
Credit default swaps	(158)	(374)	(215)	(379)
Options swaps	(4)	(107)	(21)	(142)
Total return swaps	2,086	(7,086)	(1,615)	(9,610)
<b>Net gains (losses) on derivative instruments</b>	<b>\$ 2,473</b>	<b>\$ (13,945)</b>	<b>\$ (3,582)</b>	<b>\$ (19,466)</b>

We may be exposed to credit-related losses in the event of nonperformance by counterparties to derivative financial instruments. We minimize our counterparty exposure through a credit review and approval process. In addition, we executed various collateral arrangements with counterparties to the over-the-counter derivative transactions that require both pledging and accepting collateral in the form of cash. As of June 30, 2015 and December 31, 2014, we held \$1.8 million and \$1.0 million, respectively, of cash collateral payable to trade counterparties. This obligation to return cash is reported in payables to brokers and dealers in our condensed consolidated statements of financial condition.

Although notional amount is the most commonly used measure of volume in the derivative market, it is not used as a measure of credit risk. Generally, the current credit exposure of our derivative contracts is limited to the net positive estimated fair value of derivative contracts at the reporting date after taking into consideration the existence of netting agreements and any collateral received. A derivative with positive value (a derivative asset) indicates existence of credit risk because the counterparty would owe us if the contract were closed. Alternatively, a derivative contract with negative value (a derivative liability) indicates we would owe money to the counterparty if the contract were closed. Generally, if there is more than one derivative transaction with a single counterparty, a master netting arrangement exists with respect to derivative transactions with that counterparty to provide for aggregate net settlement.

Certain of our standardized contracts for over-the-counter derivative transactions ("ISDA Master Agreements") contain credit risk related contingent provisions related to each counterparty's credit rating. In some ISDA Master Agreements, if the counterparty's credit rating, or in some agreements, our assets under management ("AUM"), falls below a specified threshold, either a default or a termination event permitting the counterparty to terminate the ISDA Master Agreement would be triggered. In all agreements that provide for collateralization, various levels of collateralization of net liability positions are applicable, depending on the credit rating of the counterparty. As of June 30, 2015 and December 31, 2014, we delivered \$6.4 million and \$13.2 million, respectively, of cash collateral into brokerage accounts. We report this cash collateral in cash and cash equivalents in our condensed consolidated statements of financial condition.

As of June 30, 2015 and December 31, 2014, we held \$7.9 million and \$22.3 million, respectively, of long exchange-traded equity options, which are classified as trading investments and included in other investments on our condensed consolidated statements of financial condition. In addition, as of June 30, 2015 and December 31, 2014, we held \$1.9 million and \$7.1 million, respectively, of short exchange-traded equity options, which are included in securities sold not yet purchased on our condensed consolidated statements of financial condition. Our options desk provides our clients with equity derivative strategies and execution for exchange-traded options on single stocks, exchange-traded funds and indices. While predominately agency-based, the options desk may commit capital to facilitate a client's transaction. Our options desk hedges the risks associated with this activity by taking offsetting positions in equities. For the three and six months ended June 30, 2015, we recognized \$7.6 million and \$40.4 million, respectively, of losses on equity options activity. For the three and six months

ended June 30, 2014, we recognized \$29.6 million and \$90.4 million, respectively, of losses on equity options activity. These losses are recognized in investment gains (losses) in the condensed consolidated statements of income.

## 10. Offsetting Assets and Liabilities

Offsetting of assets as of June 30, 2015 and December 31, 2014 was as follows:

	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Financial Position	Net Amounts of Assets Presented in the Statement of Financial Position	Financial Instruments	Cash Collateral Received	Net Amount
(in thousands)						
<b>June 30, 2015:</b>						
Securities borrowed	\$ 92,500	\$ —	\$ 92,500	\$ —	\$ (92,500)	\$ —
Derivatives	\$ 14,569	\$ —	\$ 14,569	\$ —	\$ (1,828)	\$ 12,741
Long exchange-traded options	\$ 7,935	\$ —	\$ 7,935	\$ —	\$ —	\$ 7,935
<b>December 31, 2014:</b>						
Securities borrowed	\$ 158,147	\$ —	\$ 158,147	\$ —	\$ (158,147)	\$ —
Derivatives	\$ 6,787	\$ —	\$ 6,787	\$ —	\$ (990)	\$ 5,797
Long exchange-traded options	\$ 22,290	\$ —	\$ 22,290	\$ —	\$ —	\$ 22,290

Offsetting of liabilities as of June 30, 2015 and December 31, 2014 was as follows:

	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Statement of Financial Position	Net Amounts of Liabilities Presented in the Statement of Financial Position	Financial Instruments	Cash Collateral Pledged	Net Amount
(in thousands)						
<b>June 30, 2015:</b>						
Securities loaned	\$ 6,900	\$ —	\$ 6,900	\$ —	\$ (6,900)	\$ —
Derivatives	\$ 10,615	\$ —	\$ 10,615	\$ —	\$ (6,353)	\$ 4,262
Short exchange-traded options	\$ 1,907	\$ —	\$ 1,907	\$ —	\$ —	\$ 1,907
<b>December 31, 2014:</b>						
Securities loaned	\$ 33,645	\$ —	\$ 33,645	\$ —	\$ (33,645)	\$ —
Derivatives	\$ 9,392	\$ —	\$ 9,392	\$ —	\$ (9,392)	\$ —
Short exchange-traded options	\$ 7,118	\$ —	\$ 7,118	\$ —	\$ —	\$ 7,118

Cash collateral pledged and received on derivative instruments are not considered material and are not disclosed by counterparty.

## 11. Fair Value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (*i.e.*, the “exit price”) in an orderly transaction between market participants at the measurement date. The three broad levels of fair value hierarchy are as follows:

- Level 1 – Quoted prices in active markets are available for identical assets or liabilities as of the reported date.
- Level 2 – Quoted prices in markets that are not active or other pricing inputs that are either directly or indirectly observable as of the reported date.
- Level 3 – Prices or valuation techniques that are both significant to the fair value measurement and unobservable as of the reported date. These financial instruments do not have two-way markets and are measured using management’s best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation.

### ***Assets and Liabilities Measured at Fair Value on a Recurring Basis***

Valuation of our financial instruments by pricing observability levels as of June 30, 2015 and December 31, 2014 was as follows (in thousands):

	Level 1	Level 2	Level 3	Total
<b>June 30, 2015:</b>				
Money markets	\$ 254,133	\$ —	\$ —	\$ 254,133
U.S. Treasury Bills	—	459,007	—	459,007

<b>Total liabilities measured at fair value</b>	<b>\$ 91,340</b>	<b>\$ 6,954</b>	<b>\$ 42,436</b>	<b>\$ 140,730</b>

We provide below a description of the fair value methodologies used for instruments measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy:

- **Money markets:** We invest excess cash in various money market funds that are valued based on quoted prices in active markets; these are included in Level 1 of the valuation hierarchy.

- Treasury Bills: We hold U.S. Treasury Bills, which are primarily segregated in a special reserve bank custody account as required by Rule 15c3-3 of the Exchange Act. These securities are valued based on quoted yields in secondary markets and are included in Level 2 of the valuation hierarchy.
- Equity and fixed income securities: Our equity and fixed income securities consist principally of company-sponsored mutual funds with net asset values and various separately-managed portfolios consisting primarily of equity and fixed income securities with quoted prices in active markets, which are included in Level 1 of the valuation hierarchy. In addition, some securities are valued based on observable inputs from recognized pricing vendors, which are included in Level 2 of the valuation hierarchy.
- Derivatives: We hold exchange-traded futures with counterparties that are included in Level 1 of the valuation hierarchy. In addition, we also hold currency forward contracts, interest rate swaps, credit default swaps, option swaps and total return swaps with counterparties that are included in Level 2 of the valuation hierarchy.
- Options: We hold long exchange-traded options that are included in Level 1 of the valuation hierarchy.
- Private equity: Generally, the valuation of private equity investments owned by our consolidated venture capital fund or by us directly (regarding an investment in a private equity fund focused exclusively on the energy sector) requires significant management judgment due to the absence of quoted market prices, inherent lack of liquidity and the long-term nature of such investments. Private equity investments are valued initially at cost. The carrying values of private equity investments are adjusted either up or down from cost to reflect expected exit values as evidenced by financing and sale transactions with third parties, or when determination of a valuation adjustment is confirmed through ongoing review in accordance with our valuation policies and procedures. A variety of factors are reviewed and monitored to assess positive and negative changes in valuation, including current operating performance and future expectations of investee companies, industry valuations of comparable public companies, changes in market outlooks, and the third party financing environment over time. In determining valuation adjustments resulting from the investment review process, particular emphasis is placed on current company performance and market conditions. For these reasons, which make the fair value of private equity investments unobservable, equity investments are included in Level 3 of the valuation hierarchy. We also invest in a third-party venture capital fund in which fair value is based on our capital account balance provided by the partnership and is included in Level 3 of the valuation hierarchy. If private equity investments owned by our consolidated venture capital fund become publicly traded, they are included in Level 1 of the valuation hierarchy. Also, if they contain trading restrictions, publicly-traded equity investments are included in Level 2 of the valuation hierarchy until the trading restrictions expire. During the first quarter of 2015, \$26,000 was transferred from a Level 3 classification to a Level 1 classification.
- Securities sold not yet purchased: Securities sold not yet purchased, primarily reflecting short positions in equities and exchange-traded options, are included in Level 1 of the valuation hierarchy.
- Contingent payment arrangements: Contingent payment arrangements relate to contingent payment liabilities associated with acquisitions in 2010, 2013 and 2014. At each reporting date, we estimate the fair values of the contingent consideration expected to be paid based upon probability-weighted AUM and revenue projections, using unobservable market data inputs, which are included in Level 3 of the valuation hierarchy.

The change in carrying value associated with private equity and trading equity securities Level 3 financial instruments carried at fair value is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
(in thousands)				
Balance as of beginning of period	\$ 58,841	\$ 50,744	\$ 58,926	\$ 52,081
Transfer out	—	—	(26)	—
Purchases	76	2,320	198	2,821
Sales	(18,042)	—	(18,042)	(1,121)
Realized gains (losses), net	10,114	(400)	4,920	721
Unrealized (losses) gains, net	(135)	342	4,878	(1,496)
<b>Balance as of end of period</b>	<b>\$ 50,854</b>	<b>\$ 53,006</b>	<b>\$ 50,854</b>	<b>\$ 53,006</b>

Transfers into and out of all levels of the fair value hierarchy are reflected at end-of-period fair values. Realized and unrealized gains and losses on Level 3 financial instruments are recorded in investment gains and losses in the condensed consolidated statements of income. Approximately one-third of the Level 3 investments are private equity investments owned by our consolidated venture capital fund, of which we own 10% and non-controlling interests own 90%.

Quantitative information about private equity Level 3 fair value measurements as of June 30, 2015 and December 31, 2014 is as follows:

	Fair value as of June 30, 2015	Valuation Technique	Unobservable Input	Range
(in thousands)				
Private Equity:				
Technology, Media and Telecommunications	\$ 12,447	Market comparable companies	Revenue multiple	1.8 - 2.7
		Pending acquisition	Marketability discount	30%

Also, we have an investment in a private equity fund focused exclusively on the energy sector (fair value of \$7.5 million) that is classified as Level 3. This investment's valuation is based on a market approach, considering recent transactions of the fund and the industry.

	Fair value as of December 31, 2014	Valuation Technique	Unobservable Input	Range
(in thousands)				
Private Equity:				
Technology, Media and Telecommunications	\$ 20,112	Market comparable companies	Revenue multiple	2.0 - 3.5
			Discount rate	18%
			Discount years	2.0 years

In addition, as of December 31, 2014, there are two investments (with a combined fair value of \$0.2 million) in the Healthcare and Clean-tech category that are classified as Level 3. The first investment is valued based on liquidation value and the second investment is a warrant valued using the Black-Scholes option valuation model. Also, we have an investment in a private

equity fund focused exclusively on the energy sector (fair value of \$7.5 million) that is classified as Level 3. This investment's valuation is based on a market approach, considering recent transactions of the fund and the industry.

The significant unobservable inputs used in the fair value measurement of the reporting entities' venture capital securities in the Technology, Media and Telecommunications areas are enterprise value to revenue multiples and a discount to account for liquidity and various risk factors. Significant increases (decreases) in the enterprise value to revenue multiple inputs in isolation would result in a significantly higher (lower) fair value measurement. Significant increases (decreases) in the discount would result in a significantly lower (higher) fair value measurement.

One of our private equity investments is a venture capital fund (fair value of \$30.6 million and unfunded commitment of \$2.9 million as of June 30, 2015) that invests in communications, consumer, digital media, healthcare and information technology markets. In addition, one of the investments included in our consolidated private equity fund (fair value of \$0.1 million and no unfunded commitment as of June 30, 2015) is a venture capital fund investing in clean energy, resource and energy efficiency and other sustainable industries. The fair value of each of these investments has been estimated using the capital account balances provided by the partnerships. The interests in these partnerships cannot be redeemed.

The change in carrying value associated with contingent payment arrangements Level 3 financial instruments carried at fair value is as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
	(in thousands)			
Balance as of beginning of period	\$ 42,223	\$ 37,688	\$ 42,436	\$ 38,205
Addition	—	8,915	—	8,915
Accretion	442	321	885	642
Payments	(633)	—	(1,289)	(838)
<b>Balance as of end of period</b>	<b>\$ 42,032</b>	<b>\$ 46,924</b>	<b>\$ 42,032</b>	<b>\$ 46,924</b>

Quantitative information about contingent payment arrangements Level 3 fair value measurements as of June 30, 2015 and December 31, 2014 is as follows:

Our three acquisition-related contingent consideration liabilities (with a combined fair value of \$42.0 million as of June 30, 2015 and \$42.4 million as of December 31, 2014) currently are valued using projected AUM growth rates with a weighted average of 46%, revenue growth rates with a weighted average of 71%, and discount rates ranging between 3% (when using a cost of debt assumption) and 18% (when using a cost of capital assumption).

#### ***Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis***

We did not have any material assets or liabilities that were measured at fair value for impairment on a nonrecurring basis during the six months ended June 30, 2015 or during the year ended December 31, 2014.

## **12. Commitments and Contingencies**

### ***Legal Proceedings***

With respect to all significant litigation matters, we consider the likelihood of a negative outcome. If we determine the likelihood of a negative outcome is probable and the amount of the loss can be reasonably estimated, we record an estimated loss for the expected outcome of the litigation. If the likelihood of a negative outcome is reasonably possible and we are able to determine an estimate of the possible loss or range of loss in excess of amounts already accrued, if any, we disclose that fact together with the estimate of the possible loss or range of loss. However, it is often difficult to predict the outcome or estimate a possible loss or range of loss because litigation is subject to inherent uncertainties, particularly when plaintiffs allege substantial or indeterminate damages. Such is also the case when the litigation is in its early stages or when the litigation is highly complex or broad in scope. In these cases, we disclose that we are unable to predict the outcome or estimate a possible loss or range of loss.

During the first quarter of 2012, we received a legal letter of claim (“Letter of Claim”) sent on behalf of Philips Pension Trustees Limited and Philips Electronics U.K. Limited (“Philips”), a former pension fund client, alleging that AllianceBernstein Limited (one of our subsidiaries organized in the U.K.) was negligent and failed to meet certain applicable standards of care with respect to the initial investment in, and management of, a £500 million portfolio of U.S. mortgage-backed securities. Philips has alleged damages ranging between \$177 million and \$234 million, plus compound interest on an alleged \$125 million of realized losses in the portfolio. On January 2, 2014, Philips filed a claim form (“Claim”) in the High Court of Justice in London, England, which formally commenced litigation with respect to the allegations in the Letter of Claim.

We believe that any losses to Philips resulted from adverse developments in the U.S. housing and mortgage market that precipitated the financial crisis in 2008 and not from any negligence or other failure or malfeasance on our part. We believe that we have strong defenses to these claims, which are set forth in our October 12, 2012 response to the Letter of Claim and our June 27, 2014 Statement of Defence in response to the Claim, and intend to defend this matter vigorously. Currently, we are unable to estimate a reasonably possible range of loss because the matter remains in its early stages.

In addition to the Claim *discussed immediately above*, we are involved in various other matters, including regulatory inquiries, administrative proceedings and litigation, some of which allege significant damages.

In management’s opinion, an adequate accrual has been made as of June 30, 2015 to provide for any probable losses regarding any litigation matters for which we can reasonably estimate an amount of loss. It is reasonably possible that we could incur additional losses pertaining to these matters, but currently we cannot estimate any such additional losses.

Management, after consultation with legal counsel, currently believes that the outcome of any individual matter that is pending or threatened, or all of them combined, will not have a material adverse effect on our results of operations, financial condition or liquidity. However, any inquiry, proceeding or litigation has an element of uncertainty; management cannot determine whether further developments relating to any individual matter that is pending or threatened, or all of them combined, will have a material adverse effect on our results of operation, financial condition or liquidity in any future reporting period.

### 13. Units Outstanding

Changes in limited partnership units outstanding during the six-month period ended June 30, 2015 were as follows:

Outstanding as of December 31, 2014	273,040,452
Options exercised	526,201
Units issued	207,945
Units retired	(801,673)
<b>Balance as of June 30, 2015</b>	<b>272,972,925</b>

During the first six months of 2015, we purchased 23,100 AB Units in private transactions and retired them.

### 14. Debt

As of June 30, 2015 and December 31, 2014, AB had \$404.6 million and \$489.0 million, respectively, in commercial paper outstanding with weighted average interest rates of approximately 0.3% for both periods. The commercial paper is short term in nature, and as such, recorded value is estimated to approximate fair value (and considered a Level 2 security in the fair value hierarchy). Average daily borrowings of commercial paper during the first six months of 2015 and the full year 2014 were \$417.1 million and \$335.0 million, respectively, with weighted average interest rates of approximately 0.3% and 0.2%, respectively.

As of June 30, 2015, SCB LLC had \$50.0 million in loans outstanding at an average interest rate of 1.4%. As of December 31, 2014, SCB LLC had no bank loans outstanding. Average daily borrowings of bank loans during the first six months of 2015 and full year 2014 were \$4.2 million and \$5.5 million, respectively, with weighted average interest rates of approximately 1.2% and 1.1%, respectively.

## 15. Changes in Capital

Changes in capital during the six-month period ended June 30, 2015 were as follows:

	Partners' Capital Attributable to AB Unitholders	Non-Controlling Interests In Consolidated Entities	Total Capital
	(in thousands)		
Balance as of December 31, 2014	\$ 4,085,465	\$ 30,396	\$ 4,115,861
Comprehensive income:			
Net income	290,563	7,950	298,513
Other comprehensive income, net of tax:			
Unrealized (losses) on investments	(61)	—	(61)
Foreign currency translation adjustments	(6,160)	(59)	(6,219)
Changes in employee benefit related items	410	—	410
<b>Comprehensive income</b>	<b>284,752</b>	<b>7,891</b>	<b>292,643</b>
Distributions to General Partner and unitholders	(313,597)	—	(313,597)
Distributions from non-controlling interests	—	430	430
Compensation-related transactions	(1,047)	—	(1,047)
Other	67	—	67
<b>Balance as of June 30, 2015</b>	<b>\$ 4,055,640</b>	<b>\$ 38,717</b>	<b>\$ 4,094,357</b>

Changes in capital during the six-month period ended June 30, 2014 were as follows:

	Partners' Capital Attributable to AB Unitholders	Non-Controlling Interests In Consolidated Entities	Total Capital
	(in thousands)		
Balance as of December 31, 2013	\$ 4,027,486	\$ 42,240	\$ 4,069,726
Comprehensive income:			
Net income	253,160	1,810	254,970
Other comprehensive income, net of tax:			
Unrealized gains on investments	559	—	559
Foreign currency translation adjustments	6,067	32	6,099
Changes in employee benefit related items	(1,635)	—	(1,635)
<b>Comprehensive income</b>	<b>258,151</b>	<b>1,842</b>	<b>259,993</b>
Distributions to General Partner and unitholders	(298,022)	—	(298,022)
Distributions to non-controlling interests	—	(11,375)	(11,375)
Purchases of AB Units	(1,020)	—	(1,020)
Compensation-related transactions	21,160	—	21,160
<b>Balance as of June 30, 2014</b>	<b>\$ 4,007,755</b>	<b>\$ 32,707</b>	<b>\$ 4,040,462</b>

Deferred taxes are not recognized on foreign currency translation adjustments for foreign subsidiaries, which have earnings that are considered permanently invested outside the United States.

## **16. Acquisitions**

Acquisitions are accounted for under ASC 805, *Business Combinations*.

On June 20, 2014, we acquired an approximate 82% ownership interest in CPH Capital Fondsmæglerselskab A/S (“CPH”), a Danish asset management firm that managed approximately \$3 billion in global core equity assets for institutional investors, for a cash payment of \$64.4 million and a contingent consideration payable of \$9.4 million. The excess of the purchase price over the fair value of identifiable assets acquired resulted in the recognition of \$58.1 million of goodwill. We recorded \$24.1 million of definite-lived intangible assets relating to separately-managed account relationships and \$3.5 million of indefinite-lived intangible assets relating to an acquired fund’s investment contract. We also recorded redeemable non-controlling interest of \$16.5 million relating to the fair value of the portion of CPH we do not own.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations*****Executive Overview***

Our total assets under management (“AUM”) as of June 30, 2015 were \$485.1 billion, down \$0.8 billion, or 0.2%, compared to March 31, 2015, and up \$4.9 billion, or 1.0%, compared to June 30, 2014. During the second quarter of 2015, AUM decreased primarily as a result of market depreciation of \$3.2 billion, offset by net inflows of \$2.2 billion (Institutional inflows of \$3.5 billion, offset by Retail outflows of \$0.9 billion and Private Wealth Management outflows of \$0.4 billion). During the twelve months ended June 30, 2015, AUM increased primarily as a result of net inflows of \$9.4 billion (Institutional inflows of \$11.3 billion, offset by Retail outflows of \$1.8 billion and Private Wealth Management outflows of \$0.1 billion), offset by market depreciation of \$3.1 billion.

Institutional AUM increased \$0.5 billion, or 0.2%, to \$244.2 billion during the second quarter of 2015, due to net inflows of \$3.5 billion, offset by market depreciation of \$3.0 billion. Gross sales increased 93.5% sequentially from \$7.3 billion during the first quarter of 2015 to \$14.2 billion during the second quarter of 2015. However, redemptions and terminations increased sequentially from \$2.4 billion to \$9.3 billion.

Retail AUM decreased \$1.3 billion, or 0.8%, to \$163.0 billion during the second quarter of 2015, due to net outflows of \$0.9 billion and market depreciation of \$0.4 billion. Gross sales decreased 15.5% sequentially from \$10.8 billion during the first quarter of 2015 to \$9.1 billion during the second quarter of 2015. In addition, redemptions and terminations increased 6.4% sequentially from \$9.0 billion to \$9.7 billion.

Private Wealth Management AUM was flat compared to the first quarter of 2015. Gross sales increased 5.7% sequentially from \$1.4 billion during the first quarter of 2015 to \$1.5 billion during the second quarter of 2015. In addition, redemptions and terminations decreased 32.8% sequentially from \$0.7 billion to \$0.4 billion.

Bernstein Research Services revenue for the second quarter of 2015 was \$121.9 million, up \$2.9 million, or 2.5%, compared to the second quarter of 2014, as a result of growth in the U.S. and Asia, partially offset by a decrease in Europe.

Net revenues for the second quarter of 2015 increased \$39.1 million, or 5.2%, to \$792.7 million from \$753.6 million in the second quarter of 2014. The most significant contributors to the increase were higher base fees of \$28.8 million, higher investment gains of \$11.2 million and higher Bernstein Research Services revenue of \$2.9 million, offset by lower performance-based fees of \$5.2 million. Operating expenses for the second quarter increased \$17.6 million, or 2.9%, to \$627.8 million from \$610.2 million in the second quarter of 2014. The increase was primarily due to higher employee compensation and benefits of \$10.2 million, higher promotion and servicing of \$4.2 million and higher general and administrative expenses of \$2.6 million. Our operating income increased \$21.5 million, or 15.0%, to \$164.9 million from \$143.4 million and our operating margin increased to 20.0% (24.1% on an adjusted basis) in the second quarter of 2015 from 19.0% (23.0% on an adjusted basis) in the second quarter of 2014.

## Assets Under Management

(1) Includes index and enhanced index services.

(2) Includes multi-asset solutions and services and certain alternative investments.

Our Institutional channel second quarter average AUM of \$249.9 billion increased \$17.9 billion, or 7.7%, compared to the second quarter of 2014, primarily due to our Institutional AUM increasing \$3.9 billion, or 1.6%, over the last twelve months to \$244.2 billion at June 30, 2015. The relatively large increase in year-to-year average AUM of \$17.9 billion compared to the increase in AUM of \$3.9 billion during the last twelve months is primarily due to significant outflows (\$8.8 billion) during June 2015. The \$3.9 billion increase in AUM over the last twelve months primarily resulted from \$11.3 billion of net inflows (consisting of inflows of \$12.4 billion in other services and \$2.6 billion in fixed income services, offset by outflows of \$3.7 billion in equity services), offset by market depreciation of \$6.3 billion.

Our Retail channel second quarter average AUM of \$164.5 billion increased \$5.7 billion, or 3.6%, compared to the second quarter of 2014; however, our Retail AUM decreased \$2.4 billion, or 1.4%, over the last twelve months to \$163.0 billion at June 30, 2015. The \$2.4 billion decrease in AUM over the last twelve months primarily resulted from \$1.8 billion in net outflows. June 2014 average AUM was significantly lower than our June 2014 AUM because of new assets we added from an acquisition in late June 2014 and significant market appreciation in June 2014.

Our Private Wealth Management channel second quarter average AUM of \$78.2 billion increased \$4.8 billion, or 6.5%, compared to the second quarter of 2014, primarily due to our Private Wealth Management AUM increasing \$3.4 billion, or 4.7%, over the last twelve months to \$77.9 billion. The \$3.4 billion increase in AUM over the last twelve months primarily resulted from \$2.9 billion in market appreciation.

Absolute investment composite returns, gross of fees, and relative performance as of June 30, 2015 compared to benchmarks for certain representative Institutional equity and fixed income services are as follows:

Lower performance fees	(3.9)
Higher income tax expense	(1.2)
Other	(2.2)
	<u>\$ 37.4</u>

### ***Real Estate Charges***

During 2010, we performed a comprehensive review of our real estate requirements in New York in connection with our workforce reductions, which commenced in 2008. As a result, during 2010 we decided to sub-lease over 380,000 square feet in New York (all of this space has been sublet) and consolidate our New York-based employees into two office locations from three. During the third quarter of 2012, in an effort to further reduce our global real estate footprint, we completed a comprehensive review of our worldwide office locations and began implementing a global space consolidation plan. As a result, our intention is to sub-lease approximately 510,000 square feet of office space (in excess of 90% of this space has been sublet), more than 70% of which is New York office space (in addition to the 380,000 square foot space reduction in 2010), with the remainder consisting of office space in England, Australia and various U.S. locations.

During the first six months of 2015, we recorded pre-tax real estate credits of \$0.5 million, resulting from a change in estimates related to previously recorded real estate charges.

### ***Units Outstanding***

Each quarter, we implement plans to repurchase AB Holding Units pursuant to Rule 10b5-1 under the Securities Exchange Act of 1934, as amended (“Exchange Act”). A Rule 10b5-1 plan allows a company to repurchase its shares at times when it otherwise might be prevented from doing so because of self-imposed trading blackout periods or because it possesses material non-public information. Each broker we select has the authority under the terms and limitations specified in the plan to repurchase AB Holding Units on our behalf in accordance with the terms of the plan. Repurchases are subject to regulations promulgated by the SEC as well as certain price, market volume and timing constraints specified in the plan. The plan adopted during the second quarter of 2015 expired at the close of business on July 29, 2015. We may adopt additional Rule 10b5-1 plans in the future to engage in open-market purchases of AB Holding Units to help fund anticipated obligations under our incentive compensation award program and for other corporate purposes.

### ***Cash Distributions***

AB is required to distribute all of its Available Cash Flow, as defined in the AB Partnership Agreement, to its Unitholders and to the General Partner. Available Cash Flow typically is the adjusted diluted net income per unit for the quarter multiplied by the number of general and limited partnership interests at the end of the quarter. In future periods, management anticipates that Available Cash Flow will continue to be based on adjusted diluted net income per unit, unless management determines that one or more non-GAAP adjustments that are made for adjusted net income should not be made with respect to the Available Cash Flow calculation. See Note 4 to the condensed consolidated financial statements contained in Item 1 for a description of Available Cash Flow.

## Management Operating Metrics

We are providing the non-GAAP measures “adjusted net revenues”, “adjusted operating income” and “adjusted operating margin” because they are the principal operating metrics management uses in evaluating and comparing period-to-period operating performance. Management principally uses these metrics in evaluating performance because they present a clearer picture of our operating performance, and allow management to see long-term trends without the distortion primarily caused by long-term incentive compensation-related mark-to-market adjustments, real estate consolidation charges and other adjustment items. Similarly, we believe that these management operating metrics help investors better understand the underlying trends in our results and, accordingly, provide a valuable perspective for investors.

These non-GAAP measures are provided in addition to, and not as substitutes for, net revenues, operating income and operating margin, and they may not be comparable to non-GAAP measures presented by other companies. Management uses both accounting principles generally accepted in the United States of America (“US GAAP”) and non-GAAP measures in evaluating our financial performance. The non-GAAP measures alone may pose limitations because they do not include all of our revenues and expenses.

Acquisition-related expenses	—	1,457	(1)	2,316
Sub-total of non-GAAP adjustments	5	1,046	(321)	3,936
Less: Net income (loss) of consolidated entities attributable to non-controlling interests	6,675	(3)	7,950	1,810
<b>Adjusted operating income</b>	<b>\$ 158,252</b>	<b>\$ 144,489</b>	<b>\$ 309,865</b>	<b>\$ 275,469</b>
<b>Adjusted operating margin</b>	<b>24.1%</b>	<b>23.0%</b>	<b>24.0%</b>	<b>22.5%</b>

Adjusted operating income for the three months ended June 30, 2015 increased \$13.8 million, or 9.5%, from the three months ended June 30, 2014, primarily as a result of higher investment advisory base fees of \$25.3 million and higher investment gains of \$7.3 million, offset by higher employee compensation expense (excluding the impact of long-term incentive compensation-related items) of \$14.7 million and lower performance-based fees of \$5.2 million. Adjusted operating income for the six months ended June 30, 2015 increased \$34.4 million, or 12.5%, from the six months ended June 30, 2014, primarily as a result of higher investment advisory base fees of \$60.6 million and higher investment gains of \$10.2 million, offset by higher employee compensation expense (excluding the impact of long-term incentive compensation-related items) of \$33.5 million and lower performance-based fees of \$3.9 million.

### Adjusted Net Revenues

Adjusted net revenues exclude investment gains and losses and dividends and interest on employee long-term incentive compensation-related investments, and 90% of the investment gains and losses of our consolidated venture capital fund attributable to non-controlling interests. In addition, adjusted net revenues offset distribution-related payments to third parties as well as amortization of deferred sales commissions against distribution revenues. We believe offsetting net revenues by distribution-related payments is useful for our investors and other users of our financial statements because such presentation appropriately reflects the nature of these costs as pass-through payments to third parties who perform functions on behalf of our sponsored mutual funds and/or shareholders of these funds. We offset amortization of deferred sales commissions against net revenues because such costs, over time, essentially offset our distribution revenues. We also exclude additional pass-through expenses we incur (primarily through our transfer agency) that are reimbursed and recorded as fees in revenues. During the third quarter of 2014, we reclassified certain other promotion and servicing expenses into distribution-related payments and identified additional pass-through expenses that were excluded from adjusted net revenues. As a result, we revised prior periods' adjusted net revenues to conform to the current period's presentation. These fees have no impact on operating income, but they do have an impact on our operating margin. As such, we exclude these fees from adjusted net revenues.

### Adjusted Operating Income

Adjusted operating income represents operating income on a US GAAP basis excluding (1) the impact on net revenues and compensation expense of the investment gains and losses (as well as the dividends and interest) associated with employee long-term incentive compensation-related investments, (2) real estate charges (credits), (3) acquisition-related expenses and (4) the net income or loss of consolidated entities attributable to non-controlling interests.

Prior to 2009, a significant proportion of employee compensation was in the form of employee long-term incentive compensation awards that were notionally invested in AB investment services and generally vested over a period of four years. AB economically hedged the exposure to market movements by purchasing and holding these investments on its balance sheet. All such investments had vested as of year-end 2012 and the investments have been distributed to the participants, except for those investments with respect to which the participant elected a long-term deferral. Fluctuation in the value of these investments is recorded within investment gains and losses on the income statement and also impacts compensation expense. Management believes it is useful to reflect the offset achieved from economically hedging the market exposure of these investments in the calculation of adjusted operating income and adjusted operating margin. The non-GAAP measures exclude gains and losses and dividends and interest on employee long-term incentive compensation-related investments included in revenues and compensation expense.

Real estate charges (credits) have been excluded because they are not considered part of our core operating results when comparing financial results from period to period and to industry peers.

Acquisition-related expenses, primarily severance and professional fees incurred as a result of acquisitions in the fourth quarter of 2013 and the second quarter of 2014, have been excluded because they are not considered part of our core operating results when comparing results from period to period and to industry peers.

Most of the net income or loss of consolidated entities attributable to non-controlling interests relates to the 90% limited partner interests held by third parties in our consolidated venture capital fund. We own a 10% limited partner interest in the fund. Because we are the general partner of the venture capital fund and are deemed to have a controlling interest, US GAAP requires us to consolidate the financial results of the fund. However, recognizing 100% of the gains or losses in operating income while only retaining 10% is not reflective of our underlying financial results at the operating income level. As a result, we exclude the 90% limited partner interests we do not own from our adjusted operating income. Similarly, net income of joint ventures attributable to non-controlling interests, although not significant, is excluded because it does not reflect the economic interest attributable to AB.

### Adjusted Operating Margin

Adjusted operating margin allows us to monitor our financial performance and efficiency from period to period without the volatility noted above in our discussion of adjusted operating income and to compare our performance to industry peers on a basis that better reflects our performance in our core business. Adjusted operating margin is derived by dividing adjusted operating income by adjusted net revenues.

### Investment Advisory and Services Fees

Investment advisory and services fees are the largest component of our revenues. These fees generally are calculated as a percentage of the value of AUM as of a specified date, or as a percentage of the value of average AUM for the applicable billing period, and vary with the type of investment service, the size of account and the total amount of assets we manage for a particular client. Accordingly, fee income generally increases or decreases as AUM increase or decrease and is affected by market appreciation or depreciation, the addition of new client accounts or client contributions of additional assets to existing accounts, withdrawals of assets from and termination of client accounts, purchases and redemptions of mutual fund shares, shifts of assets between accounts or products with different fee structures, and acquisitions. Our average basis points realized (investment advisory and services fees divided by average AUM) generally approximate 50 to 70 basis points for actively managed equity services, 15 to 50 basis

points for actively managed fixed income services and 5 to 20 basis points for passively managed services. Average basis points realized for other services could range from 5 basis points for certain Institutional asset allocation services to over 100 basis points for certain Retail and Private Wealth Management alternative services.

We calculate AUM using established market-based valuation methods and fair valuation (non-observable market) methods. Market-based valuation methods include: last sale/settle prices from an exchange for actively-traded listed equities, options and futures; evaluated bid prices from recognized pricing vendors for fixed income, asset-backed or mortgage-backed issues; mid prices from recognized pricing vendors and brokers for credit default swaps; and quoted bids or spreads from pricing vendors and brokers for other derivative products. Fair valuation methods include: discounted cash flow models, evaluation of assets versus liabilities or any other methodology that is validated and approved by our Valuation Committee (*see paragraph immediately below* for more information regarding our Valuation Committee). Fair valuation methods are used only where AUM cannot be valued using market-based valuation methods, such as in the case of private equity or illiquid securities. Investments utilizing fair valuation methods comprise an insignificant amount of our total AUM.

The Valuation Committee, which is composed of senior officers and employees, is responsible for overseeing the pricing and valuation of all investments held in client and AB portfolios. The Valuation Committee has adopted a Statement of Pricing Policies describing principles and policies that apply to pricing and valuing investments held in these portfolios. We also have a Pricing Group, which reports to the Valuation Committee, and is responsible for overseeing the pricing process for all investments.

We sometimes charge our clients performance-based fees. In these situations, we charge a base advisory fee and are eligible to earn an additional performance-based fee or incentive allocation that is calculated as either a percentage of absolute investment results or a percentage of investment results in excess of a stated benchmark over a specified period of time. Some performance-based fees include a high-watermark provision, which generally provides that if a client account underperforms relative to its performance target (whether absolute or relative to a specified benchmark), it must gain back such underperformance before we can collect future performance-based fees. Therefore, if we fail to achieve our performance target for a particular period, we will not earn a performance-based fee for that period and, for accounts with a high-watermark provision, our ability to earn future performance-based fees will be impaired. We are eligible to earn performance-based fees on approximately 10% of the assets we manage for institutional clients and approximately 4% of the assets we manage for private wealth clients (in total, approximately 6% of our AUM).

For the three months ended June 30, 2015, our investment advisory and services fees increased by \$23.6 million, or 4.8%, from the three months ended June 30, 2014, primarily due to a \$28.8 million, or 6.1%, increase in base fees, which primarily resulted from a 6.1% increase in average AUM. For the six months ended June 30, 2015, our investment advisory and service fees increased by \$62.7 million, or 6.6%, from the six months ended June 30, 2014, primarily due to a \$66.6 million, or 7.2%, increase in base fees, which primarily resulted from a 6.2% increase in average AUM.

Institutional investment advisory and services fees for the three months ended June 30, 2015 increased by \$10.4 million, or 9.9%, from the three months ended June 30, 2014, primarily due to a \$7.1 million, or 7.0%, increase in base fees, which primarily resulted from a 7.7% increase in average AUM. Additionally, our performance-based fees increased \$3.3 million compared to the second quarter of 2014. Institutional investment advisory and services fees for the six months ended June 30, 2015 increased by \$18.7 million, or 9.0%, from the six months ended June 30, 2014, primarily due to a \$14.6 million, or 7.2%, increase in base fees, which primarily resulted from a 6.9% increase in average AUM. Additionally, our performance-based fees increased \$4.1 million compared to the six months ended June 30, 2014.

Retail investment advisory and services fees for the three months ended June 30, 2015 increased by \$8.0 million, or 3.6%, from the three months ended June 30, 2014, primarily due to a \$11.0 million, or 5.2%, increase in base fees, which primarily resulted from a 3.6% increase in average AUM. The increase in base fees was partially offset by a \$3.0 million decrease in performance-based fees. Retail investment advisory and services fees for the six months ended June 30, 2015 increased by \$25.8 million, or 6.2%, from the six months ended June 30, 2014, primarily due to a \$28.0 million, or 6.9%, increase in base fees, which primarily resulted from a 4.8% increase in average AUM. The increase in base fees was partially offset by a \$2.2 million decrease in performance-based fees.

Private Wealth Management investment advisory and services fees for the three months ended June 30, 2015 increased by \$5.1 million, or 3.1%, from the three months ended June 30, 2014, primarily as a result of a \$10.7 million, or 6.6%, increase in base fees, which primarily resulted from an increase in average billable AUM of 6.7%. The increase in base fees was partially offset by a \$5.6 million decrease in performance-based fees. Private Wealth Management investment advisory and services fees for the six months ended June 30, 2015 increased by \$18.3 million, or 5.6%, from the six months ended June 30, 2014, primarily as a result of a \$24.1 million, or 7.6%, increase in base fees, which primarily resulted from an increase in average billable AUM of 6.4%. The increase in base fees was partially offset by a \$5.8 million decrease in performance-based fees.

### Bernstein Research Services

Bernstein Research Services revenue consists principally of equity commissions received for providing equity research and brokerage-related services to institutional investors.

Revenues from Bernstein Research Services for the three and six months ended June 30, 2015 increased \$2.9 million, or 2.5% and \$6.0 million, or 2.5%, respectively, compared to the corresponding periods in 2014. The increases were the result of growth in the U.S. and Asia, partially offset by a decrease in Europe.

### Distribution Revenues

AllianceBernstein Investments and AllianceBernstein (Luxembourg) S.A. (one of our subsidiaries) act as distributors and/or placing agents of company-sponsored mutual funds and receive distribution services fees from certain of those funds as partial reimbursement of the distribution expenses they incur. Period-over-period fluctuations of distribution revenues typically are in line with fluctuations of the corresponding average AUM of these mutual funds.

Distribution revenues for the three and six months ended June 30, 2015 increased \$1.5 million, or 1.4%, and \$4.5 million, or 2.1%, respectively, compared to the corresponding periods in 2014, while the corresponding average AUM of these mutual funds increased 1.5% and 1.8%, respectively.

### Dividend and Interest Income and Interest Expense

Dividend and interest income consists primarily of investment income and interest earned on customer margin balances and U.S. Treasury Bills. Interest expense principally reflects interest accrued on cash balances in customers' brokerage accounts. Dividend and interest income, net of interest expense, for the three and six months ended June 30, 2015 increased \$1.0 million, or 23.9%, and \$2.1 million, or 29.2%, respectively, compared to the corresponding periods in 2014, primarily due to higher broker-dealer related activity.

### Investment Gains (Losses)

Investment gains (losses) consist primarily of realized and unrealized investment gains or losses on: (i) employee long-term incentive compensation-related investments, (ii) investments owned by our consolidated venture capital fund, (iii) U.S. Treasury Bills, (iv) market-making in exchange-traded options and equities, (v) seed capital investments and (vi) derivatives. Investments gains (losses) also include realized gains or losses on the sale of seed capital investments classified as available-for-sale securities and equity in earnings of proprietary investments in limited partnership hedge funds that we sponsor and manage.

Investment gains (losses) are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014
(in thousands)				
Long-term incentive compensation-related investments				
Realized gains (losses)	\$ 342	\$ (92)	\$ 3,742	\$ 2,752
Unrealized gains (losses)	20	3,508	(954)	1,961
Consolidated private equity fund investments				
Realized gains (losses)				
Non-public investments	7,177	—	1,983	—
Public investments	—	379	—	6,655
Unrealized gains (losses)				
Non-public investments	(677)	1,000	4,346	2,117
Public investments	1,292	(1,228)	2,989	(6,392)

Derivatives	(5,316)	(13,717)	(11,030)	(18,498)
Unrealized gains (losses)				
Seed capital	(4,057)	8,144	(1,867)	6,979
Derivatives	7,789	(228)	7,449	(968)
Brokerage-related investments				
Realized gains (losses)	(1,866)	3,844	(3,390)	(5,976)
Unrealized gains (losses)	223	(5,460)	133	2,644
	<u>\$ 11,993</u>	<u>\$ 828</u>	<u>\$ 15,881</u>	<u>\$ 1,387</u>

#### Other Revenues

Other revenues consist of fees earned for transfer agency services provided to company-sponsored mutual funds, fees earned for administration and recordkeeping services provided to company-sponsored mutual funds and the general accounts of AXA and its subsidiaries, and other miscellaneous revenues. Other revenues for the three and six months ended June 30, 2015 decreased \$1.1 million, or 3.9%, and \$2.8 million, or 5.1%, respectively, compared to the corresponding periods in 2014, primarily due to lower shareholder servicing fees.

## Expenses

The components of expenses are as follows:

	Three Months Ended				Six Month Ended			
	6/30/2015	6/30/2014	\$ Change	% Change	6/30/2015	6/30/2014	\$ Change	% Change
	(in thousands)				(in thousands)			
Employee compensation and benefits	\$ 337,640	\$ 327,472	\$ 10,168	3.1 %	\$ 663,967	\$ 634,505	\$ 29,462	4.6%
Promotion and servicing:

<b>Total</b>	<b>\$ 627,815</b>	<b>\$ 610,208</b>	<b>\$ 17,607</b>	<b>2.9</b>	<b>\$ 1,237,172</b>	<b>\$ 1,194,923</b>	<b>\$ 42,249</b>	<b>3.5</b>

### Employee Compensation and Benefits

Employee compensation and benefits consist of base compensation (including salaries and severance), annual short-term incentive compensation awards (cash bonuses), annual long-term incentive compensation awards, commissions, fringe benefits and other employment costs (including recruitment, training, temporary help and meals).

Compensation expense as a percentage of net revenues was 42.6% and 43.5% for the three months ended June 30, 2015 and 2014, respectively. For the six months ended June 30, 2015 and 2014, compensation expense as a percentage of net revenues was 42.7% and 43.2%, respectively. Compensation expense generally is determined on a discretionary basis and is primarily a function of our firm's financial performance. Amounts are awarded to help us achieve our key compensation goals of attracting, motivating and retaining top talent, by providing awards for the past year's performance and providing incentives for future performance, while also helping ensure that our firm's Unitholders receive an appropriate return on their investment. Senior management, with the approval of the Compensation Committee of the Board of Directors of AllianceBernstein Corporation ("Compensation Committee"), periodically confirms that the appropriate metric to consider in determining the amount of incentive compensation is the ratio of adjusted employee compensation and benefits expense to adjusted net revenues. Adjusted net revenues used in the adjusted compensation ratio are the same as the adjusted net revenues presented as a non-GAAP measure (*discussed earlier in this MD&A*). Adjusted employee compensation and benefits expense is total employee compensation and benefits expense minus other employment costs such as recruitment, training, temporary help and meals (which were 1.3% and 1.2%, respectively, of adjusted net revenues for the three and six months ended June 30, 2015, and were 1.2% of adjusted net revenues for the three and six months ended June 30, 2014), and excludes the impact of mark-to-market vesting expense, as well as dividends and interest expense, associated with employee long-term incentive compensation-related investments. Senior management, with the approval of the Compensation Committee, also established as an objective that adjusted employee compensation and benefits expense

generally should not exceed 50% of our adjusted net revenues, except in unexpected or unusual circumstances. Our ratio of adjusted compensation expense as a percentage of adjusted revenues was 50.0% for each of the three and six months ended June 30, 2015 and 2014.

For the three months ended June 30, 2015, employee compensation and benefits expense increased \$10.2 million, or 3.1%, compared to the three months ended June 30, 2014, primarily due to higher base compensation of \$4.5 million, higher fringe benefits of \$3.2 million and higher incentive compensation of \$3.1 million, partially offset by lower commissions of \$1.3 million. For the six months ended June 30, 2015, employee compensation and benefits expense increased \$29.5 million, or 4.6%, compared to the six months ended June 30, 2014, primarily due to higher incentive compensation of \$23.4 million, higher base compensation of \$10.2 million and higher fringe benefits of \$1.6 million, partially offset by lower commissions of \$6.5 million.

#### Promotion and Servicing

Promotion and servicing expenses include distribution-related payments to financial intermediaries for distribution of AB mutual funds and amortization of deferred sales commissions paid to financial intermediaries for the sale of back-end load shares of AB mutual funds. Also included in this expense category are costs related to travel and entertainment, advertising and promotional materials.

Promotion and servicing expenses increased \$4.2 million, or 2.5%, during the three months ended June 30, 2015 compared to the three months ended June 30, 2014. The increase reflects higher amortization of deferred sales commissions of \$3.4 million, higher distribution-related payments of \$0.6 million and higher trade execution and clearance costs of \$0.4 million. Promotion and servicing expenses increased \$11.3 million, or 3.4%, during the six months ended June 30, 2015 compared to the six months ended June 30, 2014. The increase reflects higher amortization of deferred sales commissions of \$6.8 million, higher distribution-related payments of \$2.4 million and higher trade execution and clearance costs of \$1.9 million.

#### General and Administrative

General and administrative expenses include portfolio services, technology, professional fees and office-related expenses (occupancy, communications and similar expenses). General and administrative expenses as a percentage of net revenues were 13.6% (including and excluding real estate credits) and 14.0% (14.1% excluding real estate charges) for the three months ended June 30, 2015 and 2014, respectively. General and administrative expenses increased \$2.6 million, or 2.5%, during the second quarter of 2015 compared to the same period in 2014, primarily due to higher portfolio services expense of \$3.7 million, higher technology expenses of \$2.0 million and lower real estate credits of \$0.4 million, partially offset by lower professional fees of \$2.2 million and lower office-related expenses of \$1.4 million. General and administrative expenses as a percentage of net revenues were 13.8% (13.9% excluding real estate credits) and 14.6% (14.5% excluding real estate charges) for the six months ended June 30, 2015 and 2014, respectively. General and administrative expenses increased \$0.1 million, or 0.1%, during the first six months of 2015 compared to the same period in 2014, primarily due to higher portfolio services expense of \$6.1 million and higher technology expenses of \$2.1 million, partially offset by lower office-related expenses of \$3.4 million, lower professional fees of \$2.1 million and lower real estate charges of \$1.9 million.

#### Contingent Payment Arrangements

Contingent payment arrangements reflect changes in estimates of contingent payment liabilities associated with acquisitions in previous periods, as well as accretion expense of these liabilities. There were no changes in estimates during the first six months of 2015 and 2014.

#### ***Income Taxes***

AB, a private limited partnership, is not subject to federal or state corporate income taxes, but is subject to a 4.0% New York City unincorporated business tax ("UBT"). Our domestic corporate subsidiaries are subject to federal, state and local income taxes, and generally are included in the filing of a consolidated federal income tax return. Separate state and local income tax returns also are filed. Foreign corporate subsidiaries generally are subject to taxes in the jurisdictions where they are located.

Income tax expense for the three months ended June 30, 2015 increased \$2.1 million, or 30.6%, compared to the three months ended June 30, 2014. The increase is due to a higher effective tax rate in the current quarter of 5.6%, compared to 4.9% in the second quarter of 2014, and higher pre-tax income. Income tax expense for the six months ended June 30, 2015 increased \$1.3 million, or 6.8%, compared to the six months ended June 30, 2014. The increase is due to higher pre-tax income, partially offset by a lower effective tax rate of 6.2%, compared to 6.7% in the first six months of 2014.

***Net Income (Loss) of Consolidated Entities Attributable to Non-Controlling Interests***

Net income (loss) of consolidated entities attributable to non-controlling interests primarily consists of limited partner interests owned by other investors representing 90% of the total limited partner interests in our consolidated venture capital fund. During the first six months of 2015, we had \$8.0 million of net income of consolidated entities attributable to non-controlling interests, which primarily resulted from a \$9.3 million net investment gain attributable to our consolidated venture capital fund (of which 90% belongs to non-controlling interests) and management fees of \$0.7 million.

**CAPITAL RESOURCES AND LIQUIDITY**

During the first six months of 2015, net cash provided by operating activities was \$436.1 million, compared to \$338.3 million during the corresponding 2014 period. The change primarily is due to an increase in accrued compensation and benefits of \$58.9 million, lower seed capital purchases offset by lower broker-dealer related redemptions of \$49.7 million, and higher cash provided by net income of \$39.3 million, offset by increases in broker-dealer related receivables (net of payables and segregated U.S. Treasury Bills activity) of \$61.0 million.

During the first six months of 2015, net cash used in investing activities was \$11.8 million, compared to \$74.7 million during the corresponding 2014 period. The decrease primarily resulted from the purchase of a business, net of cash acquired, during 2014 of \$60.6 million.

During the first six months of 2015, net cash used in financing activities was \$330.3 million, compared to \$256.7 million during the corresponding 2014 period. The change reflects net repayments of commercial paper of \$84.9 million in 2015 compared to net issuances of \$55.8 million in 2014, higher repurchases of AB Holding Units of \$16.2 million and higher distributions to the General Partner and unitholders of \$15.6 million as a result of higher earnings (distributions on earnings are paid one quarter in arrears), offset by proceeds from bank loans of \$50.0 million and an increase in overdrafts payable of \$39.3 million.

As of June 30, 2015, AB had \$645.4 million of cash and cash equivalents, all of which is available for liquidity, but consists primarily of cash on deposit for our broker-dealers to comply with various customer clearing activities and cash held by foreign subsidiaries for which a permanent investment election for U.S. tax purposes is taken. If the cash held at our foreign subsidiaries of \$476.4 million, which includes cash on deposit for our foreign broker-dealers, was to be repatriated to the U.S., we would be required to accrue and pay U.S. income taxes on these funds, based on the unremitted amount. We currently intend to permanently reinvest these earnings outside the U.S.

***Debt and Credit Facilities***

As of June 30, 2015 and December 31, 2014, AB had \$404.6 million and \$489.0 million, respectively, in commercial paper outstanding with weighted average interest rates of approximately 0.3% for both periods. The commercial paper is short term in nature, and as such, recorded value is estimated to approximate fair value (and considered a Level 2 security in the fair value hierarchy). Average daily borrowings of commercial paper during the first six months of 2015 and the full year 2014 were \$417.1 million and \$335.0 million, respectively, with weighted average interest rates of approximately 0.3% and 0.2%, respectively.

AB has a \$1.0 billion committed, unsecured senior revolving credit facility (“Credit Facility”) with a group of commercial banks and other lenders. The Credit Facility provides for possible increases in the principal amount by up to an aggregate incremental amount of \$250 million, any such increase being subject to the consent of the affected lenders. The Credit Facility is available for AB’s and SCB LLC’s business purposes, including the support of AB’s \$1.0 billion commercial paper program. Both AB and SCB LLC can draw directly under the Credit Facility and management may draw on the Credit Facility from time to time. AB has agreed to guarantee the obligations of SCB LLC under the Credit Facility.

The Credit Facility contains affirmative, negative and financial covenants, which are customary for facilities of this type, including, among other things, restrictions on dispositions of assets, restrictions on liens, a minimum interest coverage ratio and a maximum leverage ratio. As of June 30, 2015, we were in compliance with these covenants. The Credit Facility also includes customary events of default (with customary grace periods, as applicable), including provisions under which, upon the occurrence of an event of default, all outstanding loans may be accelerated and/or lender’s commitments may be terminated. Also, under such provisions, upon the occurrence of certain insolvency- or bankruptcy-related events of default, all amounts payable under the Credit Facility would automatically become immediately due and payable, and the lender’s commitments would automatically terminate.

Amounts under the Credit Facility may be borrowed, repaid and re-borrowed by us from time to time until the maturity of the facility. Voluntary prepayments and commitment reductions requested by us are permitted at any time without fee (other than customary breakage costs relating to the prepayment of any drawn loans) upon proper notice and subject to a minimum dollar

requirement. Borrowings under the Credit Facility bear interest at a rate per annum, which will be, at our option, a rate equal to an applicable margin, which is subject to adjustment based on the credit ratings of AB, plus one of the following indexes: London Interbank Offered Rate; a floating base rate; or the Federal Funds rate.

On October 22, 2014, as part of an amendment and restatement, the maturity date of the Credit Facility was extended from January 17, 2017 to October 22, 2019. There were no other significant changes included in the amendment.

As of June 30, 2015 and December 31, 2014, we had no amounts outstanding under the Credit Facility. During the first six months of 2015 and the full year 2014, we did not draw upon the Credit Facility.

In addition, SCB LLC has five uncommitted lines of credit with four financial institutions. Two of these lines of credit permit us to borrow up to an aggregate of approximately \$200 million, with AB named as an additional borrower, while three lines have no stated limit. As of June 30, 2015, SCB LLC had \$50.0 million in loans outstanding at an average interest rate of 1.4%. As of December 31, 2014, SCB LLC had no bank loans outstanding. Average daily borrowings of bank loans during the first six months of 2015 and full year 2014 were \$4.2 million and \$5.5 million, respectively, with weighted average interest rates of approximately 1.2% and 1.1%, respectively.

Our financial condition and access to public and private debt markets should provide adequate liquidity for our general business needs. Management believes that cash flow from operations and the issuance of debt and AB Units or AB Holding Units will provide us with the resources necessary to meet our financial obligations. See “*Cautions Regarding Forward-Looking Statements*”.

## COMMITMENTS AND CONTINGENCIES

AB’s capital commitments, which consist primarily of operating leases for office space, generally are funded from future operating cash flows.

During 2009, we entered into a subscription agreement, under which we committed to invest up to \$35.0 million, as amended in 2011, in a venture capital fund over a six-year period. As of June 30, 2015, we had funded \$32.1 million of this commitment.

During 2010, as general partner of AllianceBernstein U.S. Real Estate L.P. (“Real Estate Fund”), we committed to invest \$25.0 million in the Real Estate Fund. As of June 30, 2015, we had funded \$19.0 million of this commitment. During 2014 and 2015, as general partner of AllianceBernstein U.S. Real Estate II L.P. (“Real Estate Fund II”), we committed to invest \$25.0 million in the Real Estate Fund II. As of June 30, 2015, we had funded \$0.8 million of this commitment.

During 2012, we entered into an investment agreement under which we committed to invest up to \$8.0 million in an oil and gas fund over a three-year period. As of June 30, 2015, we had funded \$6.1 million of this commitment.

See *Note 12* for discussion of contingencies.

## CRITICAL ACCOUNTING ESTIMATES

The preparation of the condensed consolidated financial statements and notes to condensed consolidated financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses.

There have been no updates to our critical accounting estimates from those disclosed in “*Management’s Discussion and Analysis of Financial Condition*” in our Form 10-K for the fiscal year ended December 31, 2014.

## ACCOUNTING PRONOUNCEMENTS

See *Note 2 to AB’s condensed consolidated financial statements contained in Item 1*.

## CAUTIONS REGARDING FORWARD-LOOKING STATEMENTS

Certain statements provided by management in this report and in the portion of AB’s Form 10-Q attached hereto as Exhibit 99.1 are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. The most significant of these factors include, but are not limited to, the following: the performance of financial markets, the investment performance of sponsored investment products and separately-managed accounts, general economic conditions, industry trends, future acquisitions, integration of acquired

companies, competitive conditions and government regulations, including changes in tax regulations and rates and the manner in which the earnings of publicly-traded partnerships are taxed. We caution readers to carefully consider such factors. Further, these forward-looking statements speak only as of the date on which such statements are made; we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date of such statements. For further information regarding these forward-looking statements and the factors that could cause actual results to differ, see “Risk Factors” in Part I, Item 1A of our Form 10-K for the year ended December 31, 2014 and Part II, Item 1A in this Form 10-Q. Any or all of the forward-looking statements that we make in our Form 10-K, this Form 10-Q, other documents we file with or furnish to the SEC, and any other public statements we issue, may turn out to be wrong. It is important to remember that other factors besides those listed in “Risk Factors” and those listed below also could affect adversely our revenues, financial condition, results of operations and business prospects.

The forward-looking statements referred to in the preceding paragraph, most of which directly affect AB but also affect AB Holding because AB Holding’s principal source of income and cash flow is attributable to its investment in AB, include statements regarding:

- Our belief that the cash flow AB Holding realizes from its investment in AB will provide AB Holding with the resources necessary to meet its financial obligations: AB Holding’s cash flow is dependent on the quarterly cash distributions it receives from AB. Accordingly, AB Holding’s ability to meet its financial obligations is dependent on AB’s cash flow from its operations, which is subject to the performance of the capital markets and other factors beyond our control.
- Our financial condition and ability to access the public and private capital markets providing adequate liquidity for our general business needs: Our financial condition is dependent on our cash flow from operations, which is subject to the performance of the capital markets, our ability to maintain and grow client assets under management and other factors beyond our control. Our ability to access public and private capital markets on reasonable terms may be limited by adverse market conditions, our firm’s credit ratings, our profitability and changes in government regulations, including tax rates and interest rates.
- The outcome of litigation: Litigation is inherently unpredictable, and excessive damage awards do occur. Though we have stated that we do not expect certain pending legal proceedings to have a material adverse effect on our results of operations, financial condition or liquidity, any settlement or judgment with respect to a pending or future legal proceeding could be significant, and could have such an effect.
- The possibility that we will engage in open market purchases of AB Holding Units to help fund anticipated obligations under our incentive compensation award program: The number of AB Holding Units AB may decide to buy in future periods, if any, to help fund incentive compensation awards depends on various factors, some of which are beyond our control, including the fluctuation in the price of an AB Holding Unit (NYSE: AB) and the availability of cash to make these purchases.
- Our determination that adjusted employee compensation expense should not exceed 50% of our adjusted net revenues: Aggregate employee compensation reflects employee performance and competitive compensation levels. Fluctuations in our revenues and/or changes in competitive compensation levels could result in adjusted employee compensation expense exceeding 50% of our adjusted net revenues.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

There have been no material changes in AB’s market risk from the information provided under “Quantitative and Qualitative Disclosures About Market Risk” in Part II, Item 7A of AB’s Form 10-K for the year ended December 31, 2014.

### **Item 4. Controls and Procedures**

#### ***Disclosure Controls and Procedures***

AB maintains a system of disclosure controls and procedures that is designed to ensure that information required to be disclosed in our reports under the Exchange Act is (i) recorded, processed, summarized and reported in a timely manner, and (ii) accumulated and communicated to management, including the Chief Executive Officer and the Chief Financial Officer, to permit timely decisions regarding our disclosure.

As of the end of the period covered by this report, management carried out an evaluation, under the supervision and with the participation of the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of

the disclosure controls and procedures. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the disclosure controls and procedures are effective.

### ***Changes in Internal Control over Financial Reporting***

No change in our internal control over financial reporting occurred during the second quarter of 2015 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## **Part II**

### **OTHER INFORMATION**

#### **Item 1. Legal Proceedings**

See Note 12 to the condensed consolidated financial statements contained in Part I, Item 1.

#### **Item 1A. Risk Factors**

There have been no material changes in our risk factors from those disclosed in AB's Form 10-K for the year ended December 31, 2014.

#### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

There were no AB Units sold by AB in the period covered by this report that were not registered under the Securities Act.

The following table provides information relating to any AB Units bought by AB in the quarter covered by this report:

#### **ISSUER PURCHASES OF EQUITY SECURITIES**

<b>Period</b>	<b>Total Number of AB Units Purchased</b>	<b>Average Price Paid Per AB Unit, net of Commissions</b>	<b>Total Number of AB Units Purchased as Part of Publicly Announced Plans or Programs</b>	<b>Maximum Number (or Approximate Dollar Value) of AB Units that May Yet Be Purchased Under the Plans or Programs</b>
4/1/15 - 4/30/15	—	\$ —	—	—
5/1/15 - 5/31/15	—	—	—	—
6/1/15 - 6/30/15 <sup>(1)</sup>	22,700	31.48	—	—
<b>Total</b>	<b>22,700</b>	<b>\$ 31.48</b>	<b>—</b>	<b>—</b>

(1) During June 2015, we purchased 22,700 AB Units in private transactions.

#### **Item 3. Defaults Upon Senior Securities**

None.

#### **Item 4. Mine Safety Disclosures**

None.

**Item 5. Other Information****Iran Threat Reduction and Syria Human Rights Act**

Pursuant to Section 219 of the Iran Threat Reduction and Syria Human Rights Act of 2012 (“Iran Act”), which added Section 13(r) to the Exchange Act, as issuer is required to disclose in its annual or quarterly reports, as applicable, whether it or any of its affiliates knowingly engaged in certain activities, transactions or dealings relating to Iran or with individuals or entities designated pursuant to certain Executive Orders. Disclosure generally is required even where the activities, transactions or dealings were conducted in compliance with applicable law. AB, AB Holding and their global subsidiaries had no transactions or activities requiring disclosure under the Iran Act, nor were they involved in the AXA Group matters *described immediately below*.

The non-U.S. based subsidiaries of AXA operate in compliance with applicable laws and regulations of the various jurisdictions in which they operate, including applicable international (United Nations and European Union) laws and regulations. While AXA Group companies based and operating outside the United States generally are not subject to U.S. law, as an international group, AXA has in place policies and standards (including the AXA Group International Sanctions Policy) that apply to all AXA Group companies worldwide and often impose requirements that go well beyond local law. For additional information regarding AXA, *see Note 1 to the condensed financial statements in Part 1, Item 1*.

AXA has informed us that AXA Konzern AG provides car insurance to the Iranian embassy in Berlin, Germany and some of their staff. The total annual premium of these policies is approximately \$13,000 and the annual net profit arising from these policies, which is difficult to calculate with precision, is estimated to be \$6,500. These policies were underwritten by a broker who specializes in providing insurance coverage for diplomats. Provision of motor vehicle insurance is mandatory in Germany and cannot be cancelled until the policies expire.

In addition, AXA has informed us that AXA Ireland, an AXA insurance subsidiary, provides statutorily required car insurance under three separate policies to the Iranian embassy in Dublin, Ireland. AXA has informed us that compliance with the Declined Cases Agreement of the Irish Government prohibits the cancellation of these policies prior to their expiration unless another insurer is willing to assume the coverage. The total annual premium for these policies is approximately \$3,650 and the annual net profit arising from these policies, which is difficult to calculate with precision, is estimated to be \$1,825.

Also, AXA has informed us that AXA Sigorta, a subsidiary of AXA organized under the laws of Turkey, provides car insurance coverage for the vehicle pools of the Iranian General Consulate and the Iranian embassy in Istanbul, Turkey. Motor Liability insurance coverage is mandatory in Turkey and cannot be cancelled unilaterally. The total annual premium in respect of these policies is approximately \$3,150 and the annual net profit, which is difficult to calculate with precision, is estimated to be \$1,575.

Lastly, AXA has informed us about a pension contract in place between a subsidiary in Hong Kong, AXA China Region Trustees Limited (“AXA CRT”), and an entity that OFAC has designated an SDN with the identifier [IRAN]. The pension contract was entered into in May 2012 and the individual enrolled in the pension contract was designated an SDN with the identifier [IRAN] in May 2013. Local authorities have informed AXA CRT that the pension contract cannot be cancelled; however, in May 2015, the individual permanently departed from Hong Kong and, as a result, claimed withdrawal of any accrued pension benefits. The annual pension contributions received under this pension contract had totaled approximately \$7,800 and the related net profit, which was difficult to calculate with precision, was estimated to be \$3,900.

The aggregate annual premiums for the above-referenced insurance policies and pension contracts are approximately \$27,600, representing approximately 0.00003% of AXA’s 2014 consolidated revenues, which are approximately \$100 billion. The related net profit, which is difficult to calculate with precision, is estimated to be \$13,800, representing approximately 0.0002% of AXA’s 2014 aggregate net profit.

**W.P. Stewart**

On December 12, 2013, we acquired W.P. Stewart & Co., Ltd. (“WPS”), an equity investment manager that managed, as of December 12, 2013, approximately \$2.1 billion in U.S., Global, and Europe, Australasia (Australia and New Zealand) and Far East (“EAFE”) concentrated growth equity strategies for its clients, primarily in the U.S. and

Europe. On the date of the WPS acquisition, each of approximately 4.9 million outstanding shares of WPS common stock (other than certain specified shares, as previously disclosed in Amendment No. 2 to Form S-4 filed by AB on November 8, 2013) was converted into the right to receive \$12.0 per share and one transferable contingent value right (“CVR”) entitling the holders to an additional \$4.0 per share cash payment if the Assets Under Management (as such term is defined in the Contingent Value Rights Agreement (“CVR Agreement”) dated as of December 12, 2013, a copy of which we filed as Exhibit 4.01 (“Exhibit 4.01”) to our December 31, 2013 Form 10-K) in the acquired WPS investment services business exceed \$5 billion on or before December 12, 2016, subject to measurement procedures and limitations set forth in the CVR Agreement. *See the definition of AUM Milestone in the CVR Agreement filed as Exhibit 4.01* for additional information regarding the circumstances that trigger payment pursuant to the CVRs. The foregoing description of the CVR Agreement does not purport to be complete and is qualified in its entirety by the full text of the CVR Agreement.

As of June 30, 2015, the Assets Under Management are approximately \$3.2 billion. Accordingly, management has determined that the AUM Milestone did not occur during the second quarter of 2015.

**Item 6. Exhibits**

31.1 Certification of Mr. Kraus furnished pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 Certification of Mr. Weisenseel furnished pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 Certification of Mr. Kraus furnished for the purpose of complying with Rule 13a-14(b) or Rule 15d-14(b) of the Securities Exchange Act of 1934 and 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 Certification of Mr. Weisenseel furnished for the purpose of complying with Rule 13a-14(b) or Rule 15d-14(b) of the Securities Exchange Act of 1934 and 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

I, Peter S. Kraus, certify that:

1. I have reviewed this quarterly report on Form 10-Q of AllianceBernstein Holding L.P.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350,  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of AllianceBernstein L.P. (the “Company”) on Form 10-Q for the period ending June 30, 2015 to be filed with the Securities and Exchange Commission on or about July 30, 2015 (the “Report”), I, Peter S. Kraus, Chief Executive Officer of the Company, certify, for the purpose of complying with Rule 13a-14(b) or Rule 15d-14(b) of the Securities Exchange Act of 1934 (the “Exchange Act”) and 18 U.S.C. § 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Exchange Act; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
